How to GAIN Power in Your Practice?

Unmatched Performance
for Hair Removal
& most Aesthetic Applications

AGAIN stands out in **Aesthetics** and **Dermatology**

DEKA
Innate Ability

AGAIN Quick Wins:

Hair Removal | Vascular Treatments
Benign Pigmented Lesions |
Non-Ablative Skin Rejuvenation | Leg Veins
Pseudofolliculitis Barbae (PFB) | Onychomycosis

Key Principles

AGAIN is a fast and high power laser platform for Hair Removal treatments with a wide range of applications in Aesthetic Medicine for professionals.

It is equipped with two complementary wavelengths, **755 nm Alexandrite** (the only effective one for fine and fair hair) + **1064 nm Nd:YAG**, that penetrates deeper into the skin for better results.

Don't Miss AGAIN for:

2-in-1 Solution

Enhanced by the combination of the **ultra powerful** and **fastest** Alex Laser together with unrivalled Nd:YAG.

Moveo Technology

(Optional handpieces)

The exclusive DEKA technology which drastically reduces the energy reflected by the skin. **Efficiency never seen before.**

What The Market Needs

A flexible dual-wavelength system with a wide range of spot sizes, fluences and repetition rates; it delivers reliable, cost-effective and fast treatments, from **permanent hair removal** to **additional aesthetic applications**.

again

THE SCIENCE BEHIND

An Innovation from Pioneers in Hair Removal Technologies

Hair removal technologies have greatly improved over the years.
DEKA has always been a pioneer and innovator in this field.

IA
INNATE A

AGAIN introduces a new and extremely flexible dual-wavelength system delivering reliable, cost-effective treatments.

The platform's flexible features are the proper tools for professionals **providing great results for a wide range of applications.**

AGAIN provides for an **excellent ROI** and **low cost of ownership.**

effectiveness

speed

safety

simplicity

- More than 11 selectable handpieces
- Different spotsize available (2.5-30 mm)
- Automatic spot recognition system
- Ergonomic connector for air-cooling devices
- **NEW!!** 30 mm spotsize

THE SCIENCE BEHIND

Inside Moveo Innovation

Moveo handpieces drastically reduces the amount of energy reflected by the skin by working in contact with the skin at lower fluence. This exclusive technology by DEKA is suitable for a wide range of applications.

moveo HR

Focus on Hair Removal

Moveo HR technology consists of multiple passes over small defined areas. This causes gradual heating and destruction of unwanted hairs. The procedure is virtually painless and with virtually zero side effects.

moveo PL

Focus on Pigmented Lesions

By progressively heating the pigmented lesions, MOVEO PL is highly effective and comfortable, without skin discoloration or hypopigmentation.

moveo SR

Focus on Skin Rejuvenation

The multipass controlled action of MOVEO SR causes a progressive increase in heat at the dermal level, which stimulates a neocollagenic process.

moveo VL

Focus on Vascular Lesions

The specific action of MOVEO VL acts directly on vascular lesions with reduced reflection of energy. It makes MOVEO VL very effective on superficial vascular redness.

The Floor to Practitioners

“ In my clinic we are committed to providing excellent medical service that exceeds industry standards, with the primary purpose of satisfying our patients. AGAIN flexibility allows me to address patients' needs and expand my practice at once! I firmly believe that having more than one wavelength enables me to expand treatment indications: Alexandrite and Nd:YAG wavelengths are complementary for getting fast and safe results with any type of skin color. Furthermore, superficial heliodermatitis can be easily treated with the new Moveo PL handpiece.

Prof. Paolo Bonan, MD- Dermatologist
Florence (Italy)

THE PERFECT MATCH

AGAIN Strength

- **High-powered laser technology**
flexibility with a wide range of spot sizes,
fluences and repetition rates for fast and efficient treatments.
- **A modern 2-in-1 workstation**
performing the most requested aesthetic applications
(hair removal, vascular lesions and skin spots, non-ablative
photorejuvenation).
- Suitable **for all skin types**.
- **Fast, safe & painless** with Moveo handpieces.
- **Easy switch between wavelengths**
and different treatments within a single session.
- **Know-how at your fingertips**
with the built-in protocol database for all kinds of hair,
phototype & treatment.
- **Low maintenance cost.**

Only for DEKA Users:
a great support in medical practice

Technical Specifications

AGAIN		
Laser Type	755 nm Alexandrite*	1064 Nd:YAG
Energy per Pulse	64 J (max)	120 J (max)
Laser Power	125 W (max)	180 W (max)
Pulse Duration	0.2 – 300 ms	
Repetition Rate	Up to 12 Hz	
Spot Sizes (optional)	From 2.5 mm to 30 mm, Moveo HR, Moveo PL, Moveo SR, Moveo VL	
Fluence	Up to 600 J/cm ²	
Dimensions and Weight	130 (H) cm x 40 (W) cm x 105 (D) cm 150 Kg	
Electrical Requirements	<30A @230 Vac	

* A single wavelength version is available, only equipped with Alexandrite laser

DANGER - Visible and invisible laser radiation. Avoid eye or skin exposure to direct or scattered radiation. Class 4 laser product.

DEKA Innate Ability

A spin-off of the El.En. Group, DEKA is a world-class leader in the design and manufacture of lasers and light sources for applications in the medical field. DEKA markets its devices in more than 80 countries throughout an extensive network of international distributors as well as direct offices in Italy, France, Japan and the USA. Excellence is the hallmark of DEKA's experience and recognition garnered in the sphere of R&D in over thirty years of activity. Quality, innovation and technological excellence place DEKA and its products in a unique and distinguished position in the global arena. DEKA manufactures laser devices in compliance with the specifications of Directive 93/42/EEC and its quality assurance system is in accordance with the ISO 9001 and ISO 13485 standards.
